SoyLusso

Built for demanding project delivery.

One partner for custom kitchens, hotel furniture and project coordination — from design intent to shipment.

COMPANY CAPABILITY DECK

WHY SOYLUSSO

Project certainty starts with one accountable partner.

Complex interior packages fail when design, manufacturing and logistics operate in silos. We align them around one project plan.

Design that can be built

Concept development is connected to engineering, materials and project requirements.

Production you can control

Manufacturing coordination and quality checkpoints reduce costly surprises.

Delivery you can track

Packaging, export documentation and shipment coordination stay connected to the schedule.

The result: fewer handoffs, clearer ownership and a smoother path from approval to installation.

WHAT WE DELIVER

A coordinated solution across hospitality and residential projects.

HOTEL & PUBLIC AREAS

Custom furniture and interior packages aligned to the design intent.

KITCHENS & CABINETRY

Project-specific cabinet systems balancing finish, function and repeatability.

RESIDENTIAL & COMMERCIAL

Flexible production support for developments, fit-outs and multi-unit programs.

HOW WE WORK

One workflow keeps every decision connected.

01

CONSULT

Define scope, priorities and commercial objectives.

02

DESIGN

Translate intent into coordinated, buildable solutions.

03

MANUFACTURE

Execute approved specifications with quality controls.

04

DELIVER

Coordinate packing, documentation and global logistics.

05

SUPPORT

Stay engaged through installation and after-sales service.

Clear milestones. Documented approvals. One team accountable for the handoffs.

FACTORY IN ACTION

Real production teams, focused on every handoff.

CRAFT IN THE DETAILS

Care is visible in the process—and in the finished detail.

Quality is managed before the product reaches site.

Specification control

Approved materials, finishes and details become the reference for production.

In-process checks

Critical dimensions, finish consistency and assembly are reviewed during production.

Pre-shipment review

Packing lists and visible condition are checked before release for shipment.

Project-specific inspection documents and certificates can be included when provided for the final client package.

GLOBAL DELIVERY

Built to travel. Planned to arrive.

Export-ready packing

Protection and labeling planned for the route and installation sequence.

Document coordination

Commercial, packing and shipment information aligned before dispatch.

Schedule visibility

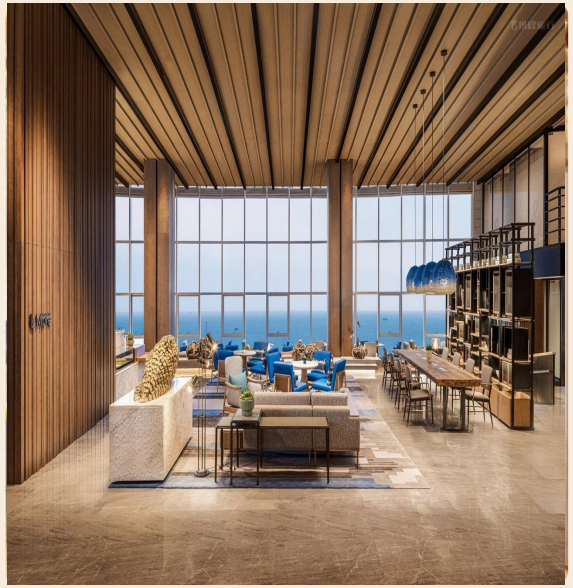

Key logistics milestones communicated so site teams can prepare.

SELECTED PROJECT IMAGERY

Experience across hotel, residential and mixed-use environments.

Hospitality exterior / mixed-use

Public-area interiors

Guestroom interiors

LEADERSHIP

A relationship-led approach to every project.

“Our role is to make complex sourcing and project delivery feel clear, controlled and dependable for the client.”

Stella Huang

Founder & CEO

Direct leadership involvement helps maintain commercial clarity, faster decisions and long-term accountability.

INTERNATIONAL COORDINATION

A connected group supporting cross-border projects.

AMERICA

Miami, USA

SAUDI ARABIA

Riyadh, Saudi Arabia

HONG KONG

Hong Kong

CHINA

Foshan, China

Local coordination points shown are based on the supplied company material.

LET’S DISCUSS YOUR NEXT PROJECT

Send us your drawings, BOQ or design brief.

We can review the scope and propose a practical next step for design development, quotation and delivery planning.
